2-align - OSINT (Gathering info)

learn → threat intelligence tool

operational powers → tactical info help on

↓  
tactical / technical "

technical - evidence and artefacts  
analyse and develop defence

strategic intel - management

level → more decision PPT.

MP, CEO

job sector operational level → PPT

telos intelligence -

ABWECH - no longer want file  
only  
database

Security Policy - large doc  
sub doc under

সমাব তন্ত্র enforceable.

Subsection of part I Overview - password for system  
(I) scope - ক্ষেত্র অন্তর্ভুক্ত পলিসি

(II) Policy - স্থানীয় ক্ষেত্রে  
do's and don'ts list

Subsection  
area

(IV) Enforcement - consequence norma

(V) Definitions:

(VI) Revision history : date of change,  
who made change  
maybe who authorized the  
change

### Identifying types of policy

(I) Standard - must be followed . if covered  
specific area of security

(II) Guidelines: ~~penalty if not~~ (NSA)  
national security agency

(III) other (not guideline)

## Procedure

- SOP - standard operating procedure (SOP)
- step by step procedure

Security control - firewall, antivirus

AUP - acceptable use policy - set accept and  
set accept ~~not at first~~

## Password Policy

- minimum length
- password history - 12 or 24 passwords
- maximum password age
- min password age -
- password complexity -

## Policies affecting personnel management

① Non disclosure agreement (NDA): confidential info leak  
also make it.

working or after the work engagement  
has completed.

② Onboarding : specific training must end soon

③ Offboarding : for info from company to go out.

④ continuing education:
